¹ Total export values for each year are rounded to the nearest million dollars. More precise values are used in the percent change calculations.

² 2011 and 2012 Dairy export estimates were revised based on improved estimation methodology.

³ Export values for 2012 were revised based on updated production data from the U.S. Department of Agriculture/National Agricultural Statistics Service.

⁴ Export values for 2011 were revised based on updated production data from the U.S. Department of Agriculture/National Agricultural Statistics Service.

⁵ Raspberries and blackberries category also includes exports of mulberries and loganberries.

⁶ Product category "Olives and olive oil" is equal to the product category "Olives and products" found in previous years' data tables.

⁷ "Total Principal Commodity" values for 2011 and 2012 were revised based on updates to USDA NASS production data.

⁸ "Total Other Products and Mixtures" is composed of (a) highly processed products that are difficult to attribute to a specific commodity such as mixtures of fruits, nuts and vegetables and other processed foods; (b) categories for which the listed item does not provide data on individual commodities and (c) animal and plant products marketed in such small quantities that they are not included in the top 57 leading commodities.
