¹2012 Dairy export estimates were revised based on updated estimation methodology.

²Export values were revised for 2012 based on updated production data from the U.S. Department of Agriculture/National Agricultural Statistics Service.

³Raspberries and blackberries category also includes exports of mulberries and loganberries.

⁴Product category "Olives and olive oil" is equal to the product category "Olives and products" found in previous years' data tables.

⁵Total other products and mixtures is equal to total US agricultural exports minus total California principal commodity
⁶Total US agricultural export values come from USDA. USDA defines agriculture to include: live animals, meat, and products of livestock, poultry, and Dairy and products; hides and skins (but not leather products); animal fats and greases; food and feed grains and grain products; oilseeds and oilseed products; fruits, nuts, and vegetables and products of these; juices, wine, and malt beverages (not distilled spirits); essential oils; planting seeds; raw cotton, wool, and other fibers (not manufactured products of these); unmanufactured tobacco (not manufactured tobacco products); sugar and sugar products; coffee, cocoa, tea, and products of these; rubber and allied products; and stock for nurseries and greenhouses, spices, and crude or natural drugs. Fish, shellfish, and forestry products are not included in "agriculture."
